d)	Rationale for the Amalgamation/ Merger	<p>The Transferor Companies and the Transferee Company are engaged in similar lines of business and complement each other. With an intend to expand the business and achieve larger product portfolio, economies of scale, efficiency, optimisation of logistic and distribution network and other related economies by consolidating the business operations being managed by different management teams, the Board of Directors of the Transferor Companies and Transferee Company proposes to consolidate the business of Transferor Companies with the Transferee Company. The proposed amalgamation of Transferor Companies with Transferee Company would inter alia have the following benefits:</p> <ol style="list-style-type: none"> 1. The amalgamation will enable the consolidation of the API business of the Transferor Companies with the Transferee Company and would create one of the largest API players in the industry and will facilitate in focused growth, operational efficiency, integration synergies and better 										

		<p>supervision of the business.</p> <ol style="list-style-type: none"> 2. The amalgamation would enable to enhance business potential and increased capability to offer a wider portfolio of products with a diversified resource base and deeper client relationships. 3. The amalgamation will significantly de-risk operations with the combined entity having eight manufacturing facilities, three Research & Development Centers and footprint in 75 + countries enabling a wider market reach and customer offerings. 4. Would have improved organizational capability and leadership, arising from the pooling of human capital who have the diverse skills, talent and vast experience to compete successfully in an increasingly competitive industry. 5. Would enable greater access to different market segments in conduct of its business and addition of new products in the portfolio would improve the competitive position of the combined entity. 6. The amalgamation would add new Research and Development capabilities, new products pipeline and capabilities and would also bring in large Contract Research and Manufacturing ('CRAMS') business innovator relationship. 7. The proposed consolidation would result in financial resources being efficiently merged and pooled leading to more effective and centralized management of funds, greater economies of scale, stronger base for future growth and reduction of administrative overheads. 8. Further, the synergies arising out of consolidation of business will lead to enhancement of net worth of the combined business and enhancement in earnings and cash flow would optimize the value of the Transferee Company and enhance the shareholder's value. 9. Moreover, the amalgamation of Transferor Companies with the Transferee Company is expected to increase the long-term value for all the shareholders. Further, the public shareholders of the Transferee Company will have an opportunity to participate in the profit and growth of the businesses of Transferor Companies which are currently unlisted.
